INDEX.

ABSTRACT, IN THE, 203.
Adaptations before birth, 458.
Adoxa Moschatellina L., The moschatel, Some notes on the ecology of, 101.
Aërial navigation of to-day, 115.
Aëronautics, The bibliography of, 444.
Aether, The sun's motion with respect to the, 282.
African big game fauna, The, 197.
—— fruit bats, 113.
—— succulent desert plants, South, 243.
Agriculture in Japan, 27.
Air and health, 155.
Alcohol from sawdust, 69.
Alcoholic fermentation, 480.
Algal, or Boghead, Coal, On the nature of, 68.
Algebra, A new, 204.
Allen, Edward Heron, 286, 304, 376, 421.
Allison, F.B., 146.
Aman, F.T., 60.
Amateur, Science and the, 162.
Ammonium salts and plant nutrition, 448.
Amoebae, Mounting, 37.
Amylon Radicans Will., and their mycorhiza, Lateral roots of, 27.
Anaplasmosis of cattle, 366.
Animal heat, 355.
—— names, English, 30.
Animals in human thought, The place of, 75.
——, Variations in the fat of, 28.
Answers to correspondents, 147.
——, Queries and, 301, 354, 405, 461, 477.
Ant communities and how they are governed, 75.
—— eaters, 231.
Anticyclone, The North Atlantic, 111.
Antrim, Greenland Falcon in, 112.
Ants and seeds, 248
—— —— seed dispersal, 319.
——, Tailor, 248, 309.
Apospory in mosses, 364.
Archaeologists, Surveying for, 33.
Archaeology in Egypt, The British school of, 336.
Aridity on the evolution of plants, Influence of, 110.
Armadillo, Young of nine-banded, 113.
Arrhenius' views concerning the planetary atmospheres, 249.
Astrographic survey, The, 444.
Astrology, 65, 106.
Astronomer, The amateur, 330.
Astronomical appointments by the Government, 476.
—— Association, The British, 480.
—— pilgrimage, An, 447.
—— problem, An, 10.
—— Society, The German, 447, 479.
—— spectroscopy with simple instruments, 274.
—— superstitions, 31, 66, 107, 147, 308
—— works, A new list of, 218.
Astronomy, a handy manual for students and others, 330.
——, History of, 114.
——, New methods in, 350.
—— notes, 26, 67, 107, 148, 192, 243, 277, 318, 363, 409, 447, 479.
——, Popular, 420.
Asymmetry in birds, 271.
Atmospheric motions, Synoptic representation of, 247.
Auks in Ireland, Little, 152.
Australia, Carboniferous glacial boulder-bed in West, 366.
——, Rainfall in, 414.
Autochromes, Instantaneous, 360.
Avens, The intermediate, 308.

BACILLUS OF LONG LIFE, THE, 444.
Bacteria, Hydrogen, 448.
——, Subjection of, 204.
——, The classification of, 450.
Bacterial corrosion of iron, 246
Bacteriology, Outlines of, 74.
Balloon ascent, Thunderstorm during a, 29.
—— ascents, Hourly registering, 29.
—— ——, December 1909, Registering, 151.
Banana fibre, Cloth from, 450.
Banfield, Arthur C., 324, 454, 487.
Barnacles and snakes, 457.
Barograph chart, A pictorial, 462.
Barometer readings, 301.
Batrachosperum Atrum (Dillw) Harv. 454.
Bats, African fruit, 113.
—— and mosquitoes, 321.
Battledore-wing fly, The, 256.
Beasts and men, 74.
Beaver dam, A, 43.
Beck-Gordon speculum lamp, 110.
Bee, The constancy of the, 22.
Beetles on tobacco leaf, 36.
Belgian view of English eoliths, A, 130.
—— —— —— —— paleoliths, A, 230.
Bellamy, F. A., 165, 215, 258, 314, 373, 441, 444, 477, 480, 504.
Benham, Charles E., 235.
Bickerton, W., 163.
Binocular device, An almost forgotten, 456.
Biology, Contributions from the Bureau of British Marine, 238.
——, The Bureau of British Marine, 177.
Bird photography, 195.
—— Sanctuary, The Brent Valley, 123.
——, What is a British, 112.
Birds, Asymmetry in, 271.
——, Extermination of, 292.
——, Factors of organic evolution, III, 1.
—— in the Isle of May, Rare, 196.
——, Migratory movements of, 419.
——, Plumage sequence in British, 29.
——, The economic status of wild, 483.
—— to the fruit grower, The relation of, 280.
Birmingham, A Natural History Museum for, 276.
Bittern in Kent, 152.
Blathwayt, J. B., 476.
Bleaching-put process, The, 143.
Bloomfield, E. N., 308.
Blood and its relation to disease, 55.
——, The serum test for, 411.
Bolton, Scriven, 66.
Bombay duck, 65.
Book-louse and the "death watch," The, 76.
Botany at the British Association, 400.
—— notes, 27, 68, 110, 148, 192, 243, 278, 318, 363, 409, 448, 480.
—— on Christmas Island, 110.
Botrichium and *Danaea*, The embryos of, 193.
Boulder-bed in West Australia, Carboniferous glacial, 366.
Bowell, E.W., 200, 241, 308, 310, 324, 326, 416.
Brady, The Rev. Joseph W., 31.
Brain and voice in speech and song, The, 492.
—— disease, The mental symptons of, 492
Braun's Mineral Kingdom, 151.
British Association, The, 413, 419.
—— ——, Botany at the, 409.
—— ——, Chemistry at the, 450.
—— ——, The, Reports of geological committee, 413.
—— wild flowers, 154.
—— zoöphytes, Their treatment with camera and microscope, 10.
Bronze, The corrosion of, 194.
Brussels congress, 369.
—— exhibition awards, 462.
Buck, Edward, 33.
Bull-dog, The evolution of the, 95.
Bulley, H. A., 106.
Bulman, G. W., 22, 120.
Burke, John Butler, 307.
Butler, Charles P., 26, 67, 107.
Butterwort, The, 319.
Buzzard in Norfolk, Honey, 72.

CALABRIAN EARTHQUAKES, DESTRUCTIVENESS OF, 489.
Calendar, A bush, 236.
California, Echinoids from, 70.
Cambridgeshire, Redfooted falcon in, 112.
Cameras, Velvet linings for, 143.
Canadian shield, The, 451
Carbon, A new sulphide of, 246.
—— in the sun's vicinity, 202.
—— writing ink, 245.
Carboniferous glacial boulder-bed in West Australia, 366.
Carolina, The Mesozoic flora of North, 245.
Catalogue, A, 242.
——, A new, 288.
Catalogues, 238.
Caterpillars, Glands of, 329.
——, Procession, 490.
——, The habits of, 395.
Cattle, Anaplasmosis of, 366.
Cavers, Professor F., 182, 193, 243, 263, 278, 294, 318, 363, 409, 448, 480.
Centipede, *Lithobius forficatus* L., The growth of a, 251.
Chambers, G.F., 243, 277, 289, 318, 359, 363, 381, 426, 447, 479.
Characters, Constancy of, 450.
——, Inheritance of acquired, 489.
Charcoal, Decolourising action of, 69.
Cheese maggots, 328.
Chemical constitution and some physical properties, The relation between, 460.
—— geology, Principles of, 458.
—— means, The destruction of weeds by, 391, 430.
—— progress, Sixty years of, 463.
Chemistry and chemical evidence, Forensic, 114.
—— at the British Association, 450.
——, History of, 154.
—— notes, 27, 69, 110, 149, 194, 245, 279, 320, 365, 411, 449, 482.
—— of some tanning agents, The, 365.
——, Practical, 330.
——, Recent advances in physical and inorganic, 154.
——, Romance of modern, 73.
——, The calculations of general, 338.
Chlorophyll, 481.
Christie and Greenwich Observatory, Sir William, 397.
Christmas Island, Botany on, 110.

684003

Clarke, W.G., 130, 239.
Classic, A scientific, 310.
Classification and mathematics, 144.
——, Engler's, 318.
Cleave, A. H. W., 147.
Climatic influences in Egypt and the Soudan, 151.
Cloth from banana fibre, 450.
Cloud observation for weather forecasts, 88.
Coal measure flora, Pictures of, 70.
—— mining, First steps in, 459.
——, On the nature of algal, or boghead, 68.
Collembola, The economic value of, 280.
Collinge, Walter E., 280, 321, 366, 412, 450, 482.
Colour screen on definition, The effect of the, 200.
Comet, A new, 68, 480.
——, —— —— suggestion regarding the tails of, 146.
—— as seen in South Africa, Halley's, 363.
——, Halley's, 26, 59, 67, 107, 192, 243, 247, 277, 281, 306.
——, Morehouse spectrum, Terrestrial equivalent of, 26.
——, 1910a, 108
——, —— Observations of, 148.
——, 1910b, Discovery of new, 109.
——, The game of, 202.
——, —— great new, 66.
Condensers, Two new, 38.
Conifers and plant diseases, 321.
Conroy, Charles C., 32, 308.
Constants of nature, Part V., The, 331.
Correspondence, 31, 65, 106, 146, 202, 234, 257, 307, 371, 408, 442, 476.
Counting and measurements, On, 325.
Country Home, The, 237.
Crab, Habits of the robber, 248.
Crabs, Indian freshwater, 329.
Crabtree, J. H., 10.
Cretaceous flora of Japan, The, 279.
Cristatella mucedo, Premature hatching of, 487.
Cross, The sign of the, 54.
Crossbill in Norfolk, Late nesting of the, 72.
Crossbills, the Incursion of, 30.
Crossley reflector, 192.
Croydon bourne flows, 70.
Crystal rectifiers, 30.
Crystalline quartz from Pembrokeshire, A small implement of, 311.
Crystallization of silver, 486.
Cuckoos, March, 196.
Cunningham, J. T., 65, 84.
Curtis, John A., 247, 281, 322, 367, 413, 452, 484.
Cuttlefishes, Poison glands of, 283.

DACITES OF VICTORIA, GNEISSES AND ALTERED, 69.
Dallinger, The late Dr. W. H., 37.
Davidson, the Rev. M., 478.
Davison, Charles, 52, 489.
Dead, The Book of the, 236.
Deaf mutes, A new method of training, 18.
"Death watch," The book-louse and the, 76.
Decapods, Associations of free swimming, 320.
Deer in the Highlands, Red, 4.
Definition, the effect of the colour screen on, 200.
Dennett, Frank C., 20, 62, 104, 145, 201, 222, 254, 303, 349, 390, 438, 470, 475.
Denning, W. F., 134, 212, 258, 262, 293, 346, 407, 440, 480.
de Roy, Felix, 258.
Desmids at the Exhibition, 369.
Development, 242.
Devon, Water pipit in, 112.
Diamonds, the origin of the Vaal River, 246.
Diary, The Cambridge pocket, 462.
——, —— Scientists', 420.
Dictyota dichotoma, Alterations of generations and sexuality in, 110.
Dinosaurs vegetarian? Were, 489.
Discharges, A new method for producing high tension, 488.
Diseases of the skin, 459.
Disinfection, Theory of, 110.
Ditcham, Dixon, W. C., 461.
——, George, 372.
Dobbs, C. F., 234.
Dog, The evolution of the bull-, 147.
Dorset, Jurassic rocks of, The, 246.
Double stars by amateur observers, On the study of, 289, 359, 381, 426.
Doublets in vacuum tubes, Neutral, 30.
Drew, Aubrey, H., 436.
Dutt, W. A., 63.
Dynamo and motor, 405.

EAGLE IN THE SCILLY ISLANDS, White-tailed, 30.
Eagle's education, An, 13.
Earland, Arthur, 286, 304, 376, 421.
Earth from the sun, The distance of the, 461.
Earth's changes, Mona's record of the, 420.
—— interior upon the question of deep mining, The bearing of recent theories on the nature of the, 460.
—— motion, Newton on the, 202.
Earthquake, The Messina, 52, 489.
Earthquakes, Destructiveness of Calabrian, 489.
—— in Greece, 489.
Earth tides, 337, 461, 478.
Echinoids from California, 70.

—— map of the Northern Hemisphere, 301.
Starling in Northamptonshire, rose-coloured, 72.

Starry heavens, An easy and concise guide to the, 330.
Stars at daylight, 461.
—— by position, magnitude and spectrum, Grouping of, 26.
——, counting the, 178.
——, July shooting, 262.
——, Midsummer shooting, 212.
——, Migrating, 46.
——, Numbering the, 23.
—— of November, The shooting, 440.
——, Round the year with the, 490.
—— shown to the children, 490.
——, Spectroscopic double, 442.
Status prize, 238.
Stebbing, The Rev. T. R. R., 259, 408.
Stereo-photomicrographs, A method of preparing, 78.
Stereoscopic transparencies, 223.
Sterilisation by ultra-violet rays, 283.
Sterilizing effects of ironing, The, 230.
Steuart-Menzies, W., 32.
Stone age, Some tools of the, 92.
—— implements and flakes from Northern Nigeria, 175.
Stones in a tree stump, 28.
Stork, The shoe-billed, 112.
——, —— whale-headed, An ornithological puzzle, 41.
Strickland, Sir W. W., 33, 269.
Succulent desert plants, South African, 243.
Succulents, On the absorption of water by the aërial organs of some, 192.
Sun spot vapours, Circulation in, 68.
——, The distance of the earth from the, 461.
——, Total eclipse of the, 68.
Sun's limb, Displacement of lines at the, 148.
—— motion with respect to the aëther, The, 282.
—— vicinity, Carbon in the, 202
Superstitions, Astronomical, 31, 66, 107, 147, 308.
Surveying for archaeologists, 33.
Sussex, Short-toed lark in, 72.
——, Spotted sandpiper in, 195.
Swanton, E. W., 208.

TABLOID PREPARATIONS, 327.
Tanning agents, The chemistry of some, 365.
Tapir, The tuguman, 153.
Tasmania, Some naked-eye observations of Mercury and other planets in Southern, 21.
Telegraphic transmission of photographs, The, 287.
Telephotography, 255.
——, Modern, 287.
Telescopes for everyone, 480.
Temperature of London in October, 484.
——, The variation of luminosity with, 316.
Terns alighting from flight, Arctic, 163.
——, Habits of the white, 197.
Thermo-chemistry, The claims of, 227.
Thiele, Thorvald Nicolai, 504.
Thiocarbamide, The reversal obtained with, 488.
Threads in the web of life, 461.
Thrips, 366.
Tibet, The riddle of, 135.
——, Three years in, 35.
Tides, Earth, 337.
Time and space, Problems in, 288.
—— at night, The finding of, 401, 477.
Tin diseases, 151.
Thomas, Bernard, 21, 146.
Thompson, Jean M., 472.
Thomson, Professor J. Arthur, 197, 248, 283, 328, 370, 419, 457, 489.
Tobacco Leaf, Beetles on, 36.
——The fermentation of, 193.
Tools of the Stone Age, Some, 92.
Toothwort, The, 244.
Toxic solutions and nuclear division, 363.
Transpiration, Recent researches on, 364.
Transvaal weather reports, 29.
Tree Frog's remarkable nest, A, 248.
Trees, How to know the, 380.
Trilobites, Cambrian, 28.
Triphenylmethyl Problem, The, 50, 90, 151, 347.
Trypanosome, A new, 369.
Tyrrell, G. W., 280, 321, 366, 413, 451.

UNION FOR COÖPERATION IN SOLAR RESEARCH, INTERNATIONAL, 405.
Uranium and radium, Relation between, 30.

VACUUM TUBES, NEUTRAL DOUBLETS IN, 30.
Valle, Felipe, 479.
Vampyrella lateritia Leidy, 450.
Variable stars, 409.
Variation in wild plants, 321.
Varnishes, Natural vegetable, 320.
Vegetation, Light and, 328.
Violet rays and plant life, Ultra, 194.
Viper, An oviparous, 72
Vision, Some mental illusions of, 439.
Voice in speech and song, The brain and, 492.

WARBLER IN LINCOLNSHIRE, LANCEOLATED, 195.
—— —— ——, Yellow-browed, 29.
Wasps, Book on, 405, 477.
——, Fertillisation of queen, 301.
Water and its own level, 405, 462.
—— bloom, Red, 485.
—— by Hypochlorites, Purification of, 110.
—— drops, Electricified, 405.
—— supply of Hampshire, The, 321.
—— vapour on pollen, The influence of, 243.
Watson's microscope catalogue, 241.
Weather and some naked-eye astronomical observations, The, 106.
—— forecasts, Cloud observation for, 88.
—— reports, Transvaal, 29.
——, The, 247, 281, 322, 307, 413, 452, 484.
——, The effect of the moon upon the, 269.
Webb, Hilda E., 113.
Weeds, 366.
—— by chemical means, The destruction of, 391, 430.
——, disadvantages of, 366.
Weevils, Grain, 412, 482.
Wegg-Prosser, F.R., 107.
Wheat seedlings, The effect of chemical agents upon the transpiration and growth of, 149.
Wheatear in Scotland, Eastern pied, 112.
White lead, action of sulphuretted hydrogen on, 366.
Women's congress at the Japan-British Exhibition, 238.
Woodchat in Kent, Corsican, 195.
Woodlands of England, The, 449.

X-RAYS, 494.
—— for examining petrifactions, 440.

YEAR BOOKS, 35.
Yerward-James, W. E., 478.
Yorkshire, Black-winged pratincole in, 72.

ZONES IN THE CARBONIFEROUS SYSTEM, 195.
Zoölogical congress, The, 370.
—— Gathering, A, 478.
—— Nomenclature, Opinions rendered by the International Commission on, 468.
—— Society, The, 197.
Zoölogy, Genders in, 259.
—— notes, 30, 72, 113, 153, 197, 248, 283, 328, 370, 419, 457, 489.
Zoöphytes, Their treatment with camera and microscope, British, 10.

PLATES.

Battledore-wing fly, *Mymar pulchellus*, female, The, facing page 256.
—— —— —— —— —— Male, facing page 256.
British wild cat and her kittens, A, 205.
—— Zoöphytes, Facing page 10.
Cat and her kittens, British wild, 205.
Cloud growing into bigger thunder cloud, 89.
Clouds with light tops, as pressage of thunder clouds, 89.
Comet "c" of 1908, taken October 27th, at 6 h. 41 m. exposure 15 min., 400
—— —— —— —— —— September 29th, at 13 h. 12 min. exposure 50 min., 401.
——, The great new, as observed telescopically on January 22nd, 1910, at 5 h. 30 min., facing page 66.
Deer at Rosehall, Sutherland, 7.
Halley, Portrait of Edmund, 164.
Halley's comet as seen at Calcutta on May 28th, 1910, facing page 300.
Herculis, The star cluster M. 13, facing page 48.
Kidney, The cross section of an entire infant's, 455.
Milky way and Nebula near π_2 Cygni, The, 181.
Moon, The, facing page 112.
Ophiuchi, The star cluster M 12, facing page 48.
Photomicrography, The application of the telephoto lens to, facing page 135.
Spectroheliogram of the Sun in Calcium, July 17th, 1907, A, 471.
Spectroheliograms taken in the light of red hydrogen, facing page 4.
Star cluster M 12, Ophiuchi, The, facing page 48.
—— —— M 13, Herculis, The, facing page 48
Stone age, Tools of the, facing page 92.
Tools of the stone age, facing page 92.
Transparencies, Stereoscopic, 223.
Zoöphytes, British, facing page 10.
